¹ The ability of a life insurance contract to accumulate sufficient cash value to help pay expenses or meet accumulation goals will be dependent upon the amount of extra premium paid into the policy, and the performance of the policy, and is not guaranteed. Policy loans and withdrawals reduce the policy's cash value and death benefit and may result in a taxable event. Surrender charges may reduce the policy's cash value in early years.

² Living Benefits are provided by no additional premium Accelerated Benefit Riders. Riders are supplemental benefits that can be added to a life insurance policy and are not suitable unless you also have a need for life insurance. Riders are optional and may not be available in all states or on all products. This is not a solicitation of any specific insurance policy.

Payment of Accelerated Benefits will reduce the Cash Value and Death Benefit otherwise payable under the policy. Receipt of Accelerated Benefits may be a taxable event and may affect your eligibility for public assistance programs. Please consult your personal tax advisor to determine the tax status of any benefits paid under this rider and with social service agencies concerning how receipt of such a payment will affect you, your spouse and your family's eligibility for public assistance.

The use of one benefit may reduce or eliminate other policy and rider benefits.
